## Sprint [Number] - Review and Retrospective

---

Sprint Review

**Sprint Goal and Demoed Features**

Sprint Goal: \*\*\*

Demoed Feature	Feedback
*	*

**Completed Tasks**

**Instructions:** Document completed tasks for each item in your sprint backlog as shown below, i.e., each user story you have decided to implement in your sprint. (Remove example/instruction before you submit.)

**Epic-User Story ID (Example: User registration - 001)**

**Acceptance criteria:** A new allotment user can save username, password, preferences for food items and preferred allotment locations.

Task ID	Description	Assigned To	Done?
001-1 Database	Implement data model and data repository for allotment users	Seona	Yes
001-2 Backend	Implement API for registering allotment users	Seona	Yes
001-3 Frontend	Create a registration form for allotment users in React	Clemence	No

**New/Revised Tasks**

**Instructions:** Add any new tasks coming from the review that wasn't previously in the backlog. Below is an example. Remove the example and add yours.

**Epic-User Story ID (Example: User registration - 001)**

Task ID	Description
---------	-------------

---

Task ID	Description
001-3 UI	The registration form for allotment users in React should show a drop-down list for preferred food items.

## Sprint Retrospective

### Discussion

**Instructions:** Below is a simple retrospective template. You can use others referenced from your Deliverables sheet. (Remove instruction before submission.)

What went well	What could have gone better	What will we do differently?
*	*	*

## Plan

**Instructions:** Add your sprint goal, sprint leads, and fill the spring backlog. (Remove the instructions before submission.)

### Sprint Goal

### Sprint Leads

### Sprint Backlog

**Instructions:** Fill in your sprint backlog for each user story you have decided to implement in your sprint. Below is an example for how User Registration-001 is modified in the new Sprint backlog. Remove the example, and fill it with user stories from project backlog (that serves the sprint goal), adding more sub-headings and tables as necessary. (Remove the instructions before submission.)

1. Epic-User Story ID (Example: User registration - 001) **Acceptance criteria:** A new allotment user can save username, password, preferences for food items and preferred allotment locations.

Task ID	Description	Story Point	Assigned To
001-3 Frontend	Create a registration form for allotment users in React	8	Clemence

2. Epic-User Story ID...

## Appendix - Project Backlog

*Instructions:*\* Remove the example, and fill it with your project backlog. In the example, we kept User Registration - 001 as not all of its tasks are complete. The review also added a revision on how the form should collect users' preferred food items. (Remove the instructions before submission)

Epic	US ID*	As a ..	I want to ..	So that ...	F/NF/UI**	Priority
User registration	001	Allotment user	Create an account	I can save a profile of my preferences	F	High
	002	Allotment user	Locate the best allotments on a map	I can choose the right ones during registration	UI	Low
	003	User	Have access to the site 99.99% of the time	I do not get frustrated with user experience	NF	Low***

\*User Story ID

\*\*F/NF/UI - Functional/Non-Functional/User Interface

\*\*\*You may have prioritised this low, as you are not planning production yet.
